The happiest mortal in the world is a child eating something that tastes mighty good right down to the last wee bit!

Give the kiddies KRUMBLES all around—Kellogg's new breakfast food. The whole of the wheat, cooked, "krumbled" and delicately toasted.

They will eat KRUMBLES because it tastes so good—and at the same time get all the benefit of its full food value.

Just a little milk or cream poured into the saucer at the side—even the "sugar baby" will forget to ask for sugar.

Look for this Signature—

## DOES PROHIBITION PROHIBIT?

That is a great question with the "Wets." They claim that it does not prohibit and therefore they are opposed to it. One would think that they are greatly interested in the progress of the temperance movement when they talk of prohibition. The sufficient answer to all their statements when they say that more liquor of all sorts is sold where the prohibition law exists, is the fact that brewers and saloon people everywhere and always are opposed to prohibition. If more beer and liquor is sold in prohibition territory, the manufacturers of these liquors would, naturally, be the greatest advocates of prohibition.

On the contrary, they are the greatest opposers of it. They furnish the money with which to fight the prohibition movement; they send out speakers to oppose it. If there is to be found in all the country a reputable preacher, they attach "Rev." to his name and send him out to speak against prohibition.

All the quotations as to the failure of the prohibition law by such speakers, has a sufficient answer in the fact that they are speaking for the "Wets."

All the great temperance organizations of this country and of other countries have made a study of the best methods of fighting the great evil and of saving the poor unfortunates that have become addicted to the habit of drinking, and these, who have no other motive than that of saving their fellow men and their country, have, after thorough investigation of all methods, concluded that prohibition is the only sane and effective way of stamping out the curse of drink.
